

BOOTCAMP | NYC

A four month intensive ministry training.

The Bootcamp program is designed to challenge you as you learn the most effective and relevant ways to minister the Gospel to the next generation.

Participants will be given practical ministry training and serve in local communities through Visitation and Sidewalk outreaches as they work hand-in-hand with our dedicated full-time missionaries.

(This is basically very similar to our program previously known as the Internship.)

Bootcamp | NYC is an intensive four-month program based in Brooklyn, New York. Through a combination of academic learning and personal hands-on experience, our program is specifically designed to develop and advance your leadership and ministry skills as well as impart Godly wisdom for modern day missionary assignments.

Your time here will begin with a week of hardcore training where you will learn how to effectively minister the Gospel to the next generation. That training will continue throughout your time here with weekly classroom instruction and real world experience.

The majority of your time here will be focused on working alongside our dedicated full-time missionaries doing hands on ministry. Regularly you will be out on the streets ministering to children and families in communities all around the city. This program cultivates spiritual, physical and emotional stamina. You can expect to be stretched to your limits and truly transformed as you see God move and work in the lives of the people you minister to.

Whether you are looking for a way to serve God here in New York City or for practical training to further the ministry God has already called you to do, the Bootcamp program is the perfect opportunity for you!
